

Eagle Roofing Products Has Expanded Operations in Nevada and Florida

The company has grown to become the largest privately held USA MADE, USA OWNED concrete roof tile manufacturer in the United States through its unwavering commitment to customer relationships, innovation and its Team Members.

Eagle Roofing Products, the industry leader in concrete roof tile manufacturing has remained committed to increasing the company's national footprint by recently expanding in Nevada as well as in Southern Florida through its subsidiary, Eagle Roofing Products Florida, LLC.

By expanding operations with its recently opened Las Vegas Stocking Yard and West Palm Beach Satellite Yard, Eagle Roofing Products is allowing for easier and quicker access to its concrete roof tile products and components for the growing markets of the Western Intermountain states and Florida. Opened in November 2020, the Las Vegas location has provided Eagle the opportunity to improve the delivery times of its products in Nevada, as well as in Colorado and Utah. Supported by its Rialto, California manufacturing plant, this state-of-the-art facility provides high quality roofing materials to Eagle's customers in these states and in Southern California.

When referring to the West Palm Beach Satellite Yard that opened at the beginning of this month, Vice President of Sales and Marketing, John J. Campbell stated, "The housing market in Florida is thriving. The intense demand offers Eagle, its Team Members and the entire tile roofing industry the greatest opportunities for growth in the USA." He continued, "Our new West Palm Beach Satellite Yard and the commissioning of our twentieth production line in Sumterville, as well as our continued search for property to build a new plant between Arcadia and Port Charlotte, is proof positive that Eagle Roofing Products is committed to Florida by expanding the market for tile roofing and creating new jobs for decades to come."

The new Satellite Yard is supported by Eagle's manufacturing plant located in Sumterville, Florida and will service the Treasure Coast of Florida down to Broward and Dade counties. Like the new Las Vegas Yard, this facility makes Eagle concrete roof tile more easily accessible and timely for both the exploding new construction and reroof markets.

As the largest USA MADE, USA OWNED concrete roof tile manufacturer in the United States, the new Yard locations further cement Eagle's dedication to offering sustainable roofing solutions to additional customers across North America.

About Eagle Roofing Products

Eagle Roofing Products is a division of Burlingame Industries, a California based, privately held family organization that has been in the concrete roof tile industry for over 40 years. Founded in 1989 with five employees, Eagle has grown to four manufacturing plants, five design centers and a work force of 700 employees. As the largest USA made, USA owned concrete roof tile manufacturer in the United States, Eagle Roofing Products specializes in providing concrete tile roofing solutions for the building industry.
