SIMPLE. *elegant*. SOLUTIONS.
from a company you can trust

Bel Air-4502 Arcadia Canyon Brown

Your Concrete Tile Roof Is More Than Just Curb Appeal—It's Protection With Purpose

Built to endure. Designed to elevate your home's beauty.

When you purchase an Eagle concrete tile roof, the benefits are nothing short of exceptional—delivering superior energy efficiency, unmatched durability, and a level of refined curb appeal that continues to perform year after year.

Energy Efficiency

- Tile roofs keep homes cooler in the summer and warmer in the winter, lowering energy use and cooling costs
- Tile roofs are inherently energy efficient
 - Naturally ventilated design enables air to circulate between the tile and roof deck
 - Its thermal mass allows for the absorption, storage and slow release of heat energy
 - Naturally reflective, reducing the amount of solar radiation absorbed by the roof
 - Lighter colors can further improve solar reflectance, repelling heat and UV rays
- **Compared to a dark asphalt shingle roof, a concrete tile roof can trim your cooling bill by 20% or more a year**

Durability & Longevity

- **A properly installed and maintained concrete tile roof can last 45-75 years or more**
- Dense, hard material that resists impact, fading, and cracking
- Class A Roof Covering offering superior protection against fire
- Can withstand hurricane-force winds up to 180 mph
- Impervious to damage from repeated freezing and thawing cycles
- Insurance incentives increasingly favor resilient materials

Curb Appeal

- **Concrete tile roofs provide a timeless, elegant and high-end look**
 - A roof represents about 40% of a home's curb appeal
- Symbol of luxury and quality construction
- Distinct shapes and colors complement both modern and traditional designs
- Homes with tile roofs signal a significant investment and have a higher resale value

Capistrano-3602 Concord Blend

2026

Color of the Year

CONCORD BLEND

A gorgeous palette that radiates warmth, harmony, and effortless sophistication.

Comprised of rich, nature-inspired hues of charcoal and tan, **Concord Blend** is a luxe neutral that brings a sophisticated, grounded look to any residential or commercial space.

Available in multiple profiles, this modern blend rises to the occasion by instantly adding character and dimension to your overall facade. A beautiful balancing act of deep, organic tones, **Concord Blend** anchors and defines the roofline while creating a cohesive, elevated exterior that feels both inviting and timeless.

How To Style Concord Blend:

- **For an earthy look:** Choose a creamy white or muted green for your main base to complement the tan elements in the roof tile. A medium-toned greige on the front door, shutters, or siding can serve as the perfect bridge to tie the palette together. Natural wood and dark metal hardware will help unify the space.
- **Lean into bold:** Dark navy, smoky black or rich terracotta are powerful choices to create a stunning effect. Copper or bronze gutters, light fixtures and accessories will add a touch of luxury.

Uncover the enduring, sophisticated beauty of Concord Blend.

Bel Air-4602

Classic Collection

Limitless options without compromise; that is what you get with Eagle's Classic Collection. A robust portfolio of concrete roof tiles featuring our core colors and signature profiles, our Classics are crafted to bring timeless beauty, lasting performance, and unmistakable character to every home and commercial project. Available in a rich spectrum of ranges and blends—from warm earth-inspired tones and cool grays to refreshing natural hues—we make it easy to create a gorgeous exterior that is not only distinctive but enduring.

Turn ordinary structures into standout showcases with the Classic Collection.

BEL AIR

Sometimes, the beauty is in the simplicity of the design. As our most popular profile, Bel Air features a flat, smooth surface with tailored lines and a clean square butt, delivering a sleek and elegant finish. Exquisite on its own or paired with complementary exterior elements, Bel Air's versatility allows you to elevate your curb appeal with artful combinations of pavers, siding, stonework, lush landscaping, and more. The possibilities are truly endless!

CAPISTRANO

A high S-profile, our Capistrano tile is semi-cylindrical and remains the most traditionally recognized silhouette in roofing. A true style icon, this centuries-old design beautifully complements Spanish and Italian architecture and pairs effortlessly with stucco, stone, and brick exteriors. Yet its timeless appeal extends far beyond its Mediterranean roots—Capistrano’s striking presence enhances virtually every type of structure, from traditional to modern residential and commercial buildings to military and institutional projects. With Capistrano, you’re not just selecting a roof—you’re investing in a legacy of elegance and endurance.

3688F Buena Vista Blend

CAPISTRANO

FEATURED PRODUCT

3688F Buena Vista Blend

Buena Vista Blend is a sophisticated palette of light and dark grays and a rich terracotta. This combination strikes an ideal balance between modern, cool neutrality and inviting, rustic warmth. Its layered tones create an elegant aesthetic that pairs beautifully with whites, creams, greiges, and metal accents—allowing the roof’s dimensional color story to take center stage. For a natural, cohesive exterior, consider complementing it with mustard or pale-yellow hues, or lean into muted greens, sandy beiges, and cedar or dark walnut stains to evoke an earthy, nature-inspired feel.

Buena Vista Blend offers versatility and depth—making it a color choice that not only enhances your design today but continues to look stunning for years to come.

FEATURED PRODUCT

2507W Boca Cream Range

Boca Cream is a versatile neutral defined by soft mocha undertones and subtle cream streaks. A designer's dream, it pairs beautifully with classic beiges, tans, and browns, drawing from the same warm color family to create a refined look. For a more modern approach, it also serves as a soft, luminous backdrop for bold accents like charcoal shutters or a deep navy front door. Its adaptability is undeniable, allowing this roof tile profile and color to complement any architectural style—from a sun-drenched Mediterranean villa to a clean, contemporary estate.

Boosted Capistrano

ACCESSORY TILE

SPECIALTY INSTALL

Love the look of a Capistrano tile roof? Augment its beauty by replicating the style of an authentic mortar-boosted clay roof.

Our Boosted Capistrano accessory pieces create a timeless, Old-World aesthetic by giving our high-barrel tiles a staggered, layered appearance that adds significant depth and character to the roofline.

Considerations:

- Discuss with your Roofing Contractor as this is a specialized, high-end installation that is more labor-intensive and requires additional materials.
- Choose your style: neat treatment or a more traditional, aged look.
- Decide on both the color of the mortar, as well as the boosted accessory piece to go with your base tile.

% USED ON ROOF	APPROX. INSTALLED WEIGHT FIELD TILE PER 100 SQ FT
10% Application	990
20% Application	1080
30% Application	1170

Each Boosted piece weighs approximately 4.8 lbs.

Why Eagle Roofing Products and Concrete Roof Tile

Using globally sourced materials to create our products, Eagle Roofing Products is the largest privately held, USA-owned concrete roof tile manufacturer in the nation. Choosing Eagle means investing in a concrete tile roof that is visually striking, exceptionally durable, energy-efficient, and sustainable.

Founded in 1989, Eagle has expanded its operations to four manufacturing plants and two strategically located stocking yards, ensuring we can meet the growing demand for concrete roof tile throughout the United States and Canada. With decades of industry experience and an unwavering commitment to responsive, personalized service, Eagle has earned a distinguished reputation for quality and reliability. Our customers can trust that we will deliver premium roof tile components, as well as visually refined and environmentally responsible concrete roof tile products that will last.

Eagle is customer service.

Built To Thrive Where Others Fail In Severe Weather

Choosing an Eagle Roofing Products concrete tile roof means investing in lasting protection and unwavering peace of mind. Engineered and tested to exceed the industry's highest standards, our tile is built to thrive where other roofing materials fail. A properly installed and maintained Eagle tile roof stands strong against relentless rain, heavy snow, powerful winds, and extreme heat—delivering unmatched performance without sacrificing its timeless beauty.

Fire Tested

Eagle Roof Tile is a Class A roof covering achieving the highest fire safety rating, providing excellent protection especially in wildfire-prone areas.

Hail/Impact Tested*

An outstanding choice for hail-affected regions, concrete roof tiles provide superior resiliency (unlike other roofing materials). Some insurance companies offer discounted premiums because of its impact resistance.

**Stockton, Arizona and Florida manufactured tiles only.*

High Wind Tested

An Eagle Tile Roof, when expertly installed using proper techniques, can withstand the strongest storms and harshest winds. Our tile is tested and approved for use in the Miami-Dade High Velocity Hurricane Zone, proven to endure sustained winds of up to 180 mph.

*Freeze Thaw Protection

Eagle Roof Tile passes Freeze-Thaw requirements.

**Excludes color bonded/slurry tiles.*

Roofing material lifespan over 75 years.*

Tile Roofing Is Simply The Superior Choice

NEW CONSTRUCTION • REROOF • RESIDENTIAL • COMMERCIAL

TILE VS SHINGLE: HOW DO THEY COMPARE?

Concrete Roof Tile: A Permanent Solution

- Eagle Tile Roofs are an excellent choice to safeguard your property
 - Exceptionally fire-resistant meeting rigorous Class A rated standards and Wildland Urban Interface (WUI) compliance for building materials
 - Can withstand sustained winds of up to 180mph*
 - Hail/Impact Tested (in certain regions)
 - Freeze-Thaw resistant (excludes color bonded/slurry tiles)
 - Does not warp, rust or bend like other materials
- Tile Roofs are a superior energy-efficient choice
 - Reflects solar heat
 - Creates natural ventilation
 - Reduces heat transfer into attics up to 70% less than asphalt shingles
 - Lowers energy costs up to 20% per year
- Eagle Tile is produced from natural products: sand, cement, water, oxide
 - Recyclable and biodegradable at the end of its lifespan
- Eagle Tile allows for creativity in design with a robust portfolio of colors and profiles to complement various architectural styles

Asphalt Shingle: A Temporary Roof Covering

- Asphalt Shingle Roofs are less durable and weather vulnerable
 - Factors like intense sun and extreme weather can shorten their lifespan
 - Easily damaged by strong winds and hail
 - Heat and moisture can cause cracks, curling and buckling
 - UV damage due to granule loss
 - Material matters—not all Shingle Roofs are Class A fire rated
- Shingle Roofs are less energy efficient—absorbing and trapping heat, radiating it down to the attic and home. Indoor temperatures rise which increases energy consumption
- Asphalt Shingles are not environmentally friendly as they are a petroleum-based product and fill landfills
- Asphalt Shingle Roofs offer less distinct curb appeal

Choose Permanence Over Temporary

By choosing an Eagle concrete tile roof for your forever home, you’re investing in permanence and longevity. With proper installation, high-quality components, and routine maintenance, your tile roof can protect your residence, valuables and loved ones for a half-century or more. The alternative is a shingle roof that demands costly replacements every 15 years—and too often fails when you need it most.

ASPHALT SHINGLE VS CONCRETE ROOF TILE L I F E S P A N

“An asphalt shingle roof’s best day is the first day it is installed”.

“A properly maintained concrete tile roof can last 45-75 years, or more”.

Bel Air-4602 Concord Blend

Committed to your Trust and Satisfaction

Specifying Eagle

Every effort has been made to provide you with the tools you need to specify Eagle on your next residential or commercial project. You can find these tools on our website at eagleroofing.com.

Approvals

IAPMO ER #1900

Warranty

Servicing the building and roofing industries since 1989, Eagle Roofing Products proudly stands behind its products with a Transferable Limited Lifetime Product Warranty. We recommend that all customers read our warranty for details and conditions, which can be found at eagleroofing.com. To register your Eagle warranty, visit erwarranty.com.

Disclaimer

Eagle Roofing Products concrete roof tile is made from natural materials and color variations are to be expected. Every effort has been made to ensure the colors in this brochure are as close to the actual roof tile; however, photographic and printing techniques can alter the printed colors shown, varying it from actual tile colors. In addition,

Installation

Eagle recommends that you find a licensed and insured Roofer for all of your roofing needs. Detailed installation recommendations can be found in the latest ***Florida High Wind Concrete and Clay Tile Installation Manual*** published by the Tile Roofing Industry Alliance and the Florida Roofing and Sheet Metal Contractors Association. For further information, visit: tileroofing.org

Blended Tile

Blended tile provides added value and beauty to any architectural structure. **However, it requires careful placement in a randomized manner by your Roofing Contractor, who is responsible for ensuring that the tile installation is completed in an aesthetically pleasing manner.** Eagle Roofing Products recommends that you discuss this design effect and any concerns with your Roofer, prior to installation, to ensure that no hot spots (patches of color that undo the blended effect) are created.

colors are subject to change, as slight variations in color or flashing may occur during manufacturing. **To ensure your satisfaction with the tile you selected from this brochure, we strongly recommend that you obtain a free tile sample from your Roofing Contractor, an Eagle Design Center or an Eagle Account Representative before placing your order.**
